Focus Return & The New Vision

After some discussion with a number of brethren, the question was raised as to what direction the BNL will be taking in the light of the lateness of the hour and the need to complete the work in the mission fields.

When the BNL first began, it intended to be a publication that was to help get the missionary work done in Vanuatu whereby Bro' Adrian Gray became the main beneficiary of that publicity.

As time went by, brethren sent in interesting articles such as testimonies and prayer requests plus sermons of various ministers. There were times where controversial subjects were permitted to be expressed and like everything in life, you can't please everybody. As the BNL became a very popular publication with possibly thousands of brethren around the world receiving it regularly - directly or indirectly - it has diversified for the use of many more brethren that are actively involved in missionary work as well as advertising upcoming meetings and conventions around the world. It has also been used as an internet link for many message websites that have a common desire to spread this end-time move of God.

But time moves on and we see the need to become more focused on what matters the most. Therefore it has become necessary to allow the BNL to concentrate on assisting as many missionary ministries out in the field and supporting them in every way we can by promoting their work and getting their needs fulfilled as they finish off the great commission.

From the Editor's desk

It has materialised !! I had been musing for weeks now on the idea of putting out an on-line Newsletter as a service to the Pastors and ministering Brethren. So with much consultation, I can now present you with the first edition of on-line Believers Newsletter.

I have been so encouraged by the positive comments from the Brethren about this 'about to be birthed' Newsletter. Thank you, dear folk from the Board of Trustees.

Our vision was to bring the Bride a little bit closer to one another until we are bound together by the cords of love, under One Headship.

It is also our desire to help the ministering Brethren on the mission fields by doing what we do best - broadcasting their requirements for books etc. Even after reading Brother Adrian Gray's request for message material, it stimulated our imagination: Could we print further message books from the existing ones? What do you think?

We can all be of service to the Body. And for us to do this, we need your input. And just after I wrote those last few words, hey presto! My computer fed out those testimonies from Brother Albert. What a blessing they were to us. We know you'll agree.

The Board of Trustees welcome any suggestions that would help the Bride in their part of the vineyard - for surely the fruit is on the vine and we are awaiting His return for us any day now. God bless you all.

Brother Charles Wilson
The Editor

As a result of the above, we will be winding down the various sermons that have been published in the BNL as well as subjects that digress from our main theme. The BNL will be reduced in page numbers and will get the missionary work highlighted for any brother that desires to use it to assist them. It may be that a missionary brother needs materials or finance for their work and we will endeavour to see that these needs are promoted.

The days of polarizing and politicizing must come to an end, amongst the genuine believers, where we can unite to help each other out as this world's systems tighten up against us. As the pressure comes on, the Bride will get that much closer to each other and we desire, at the BNL, to lighten the burden where we can in order that the message reaches to the farthest corners of the world.

We will still receive testimonies and advertising of conventions and books, etc. But the articles will now be scrutinized more than before so that the size of the publication each month is no more than 10 pages

Bro Charles & the Late Sister Joan Wilson

GRATEFUL THANKS

Our thanks go to Sister Joan Wilson who gave her last years to the success of the BNL. Sister Joan is greatly missed and will not be easily replaced. Bro' Charles realizes time is moving on and with the loss of Sister Joan to share in the work-load, because of the additional activity, recently and in the future, the baton must be passed to others. So gradually we will be injecting younger blood into the administration of the BNL. This will become apparent as the months go by. Bro Charles' face will still remain on the front page, as long as possible, out of respect to this gallant man's fortitude in withstanding all the obstacles that were faced when the BNL was started.

We humbly thank everybody for their support over the past 8 years and may the Lord continue to bless you all.

Shalom.

Love Slave to Jesus

From a Saint in Rotorua

In the Bond Slave days mentioned in the Old Testament, Exodus 21v1-6 /Deuteronomy 15v16-17 it says that when an indentured Slave was given their freedom at the end of their servitude and they loved their Master so much because of his kindly treatment of them that they wanted to stay and continue serving him, the Master would ask them to 'put their ear up to the door' so a hole could be punched through the earlobe with an awl, denoting that they were *Free Slaves*, who stayed with their Master out of love for him and his for them. They were known as 'Love Slaves'! From that comes this verse.

*I want to be Bound to Jesus, Yes, Bound to Jesus
Set free from sin forever more
I want to be dead to sin and alive in Him
And the fear of death won't hurt me anymore*

*Make me a Love Slave, Make me a Love Slave
For I love this Master that I serve
Put my ear up to the door
Don't let me leave here anymore
Make me a Love Slave forever to my Lord*

Report from *Message Believers Fellowship,*

Funyula Kenya.

I read of, and want to encourage more believers who are financially able to emulate and support projects like Pastor Stephen Ikomba's Message school in Namwendwa on the Kamuli to Kaliro Road in Uganda.

Young sisters in our church have had serious problems with schools for refusing to wear shorts as games uniform and keeping long hair. There is one sister who almost left school because the Catholic Church pressed a school they sponsor to adopt certain illegal school rules. When she joined secondary her school insisted she must wear shorts or leave. Her mother is a believer but the father is a Catholic. He was so furious that her daughter wanted to leave the school over shorts. Matters were made worse when certain sisters from other believers' churches compromised with the illegal school rule requiring them to wear shorts. We wrote a strongly worded letter to get her the right to learn without interference.

The following story featured in "The Daily Nation" a Kenyan daily Newspaper this year.

Girl denied Form One admission for having long hair Student in Elgeyo-Marakwet has been denied admission to a secondary school for having long hair.

Ruth Jemutai Kongin at Lelboinet in Keiyo South on February 26, 2014 after she was allegedly denied admission to Metkei Girls Secondary School in Elgeyo-Marakwet County for having long hair. She was turned away even after paying her fees in full. Ruth said it was against her faith to cut her hair. She says she is ready to go to another school that will allow her to keep her hair. She scored 356 marks in the 2013 KCPE exam. PHOTO|JARED NYATAYA.

Unfortunately, many believers in most African countries trust government public schools more than any other schooling option. In the past there has been a lot of advocacy in favour of home schooling as the Ministry of education here in Kenya does not allow it. But there is a new act, which I have read and found that although home schooling is not clearly recognized, at least "school" is defined in such terms that allow private schools as an the option that would serve the purpose of a home school.

I however identified certain issues; finances, learning resources and legal and social challenges. I shared with some brothers employed by NGOs supporting education of children and they all suggested that we start an NGO or CBO for supporting believers willing to educate their children in believers' private schools and have no resources. But this did not work as the government registration agency put so many huddles in the way for our CBO's registration, so we gave up.

I have a boy, my last born Lee Vayle born early this year who will go to school a few years from now, I have seen how public school is influencing his elder brother and next year their sister might join a school that requires her to cut hair. I have therefore set aside a piece of land in our Township, where I want a school built that will raise up the young learners in accordance with the principles of the bible. I believe that when the truth is drilled in them at the lower primary level, they won't compromise when they reach secondary level. I need your prayers.

Proverbs 22:6 says "Train up a child in the way he should go: and when he is old, he will not depart from it." Most educationists no longer believe in this. It is therefore, to me, very important to support this kind of projects. I know many parents, especially here in Kenya, do not have confidence in some privately owned schools because of past experiences with dishonest businessmen out to mint money from unsuspecting parents. These are some of the serious challenges we need to address. We must not allow our children to be influenced by people who do not believe God's word.

God bless you bro Charles –

JAPAN TRIP

8 January 2013

Brother Danny presents the Message to two Japanese young people at Wakatsuki residence.

Rebecca plays the violin as sisters Fusae, Emiko and Isabel offer special song during one of the meetings in Kanagawa

It's winter; yet, Brother Danny baptized sister Miyuki and brother Kouya at the cold water of Kanagawa beach.

"This is practically all but the extreme East. I practically visited all the countries of Europe and Asia, and--and through that part of the country, even to the borderlines of Russia, but never been in Japan yet. And that's supposed to be next on the program, this, Australia and New Zealand and Japan. My next stop, from where I was at, was Hong Kong, China. We was just around on the other side, way closer to come to the United States, coming this a way. We just had to stop at Hong Kong, Tokyo, Formosa, and Guam, Wake, Philippines, then here..... Bro. W.M. Branham

The above mentioned statement of the prophet was simply a point of giving the audience a brief idea of his itinerary. But it had tremendous impact in my heart when I read it about four years ago. Since then, the burden was getting more heavier. I never had any idea how it will happen but I had faith it will be realized soon... in His own time.

Originally, brother Nestor Espanola and myself were supposed to go and meet a Filipino brother working in Japan. This brother went to the Philippines and met brother Dondon Cabotaje and later got baptized. This brother was willing to arrange meetings with the Filipino community but when we got our Japanese visa, the said brother went back to the Philippines and so our trip was almost cancelled.

But the Lord made a way for us to get a hold of sister Emiko and sister Fusae who later expressed their desire to accommodate us. The two sisters (mother and daughter) heard me preach through live streaming in one of the churches in the United States. Afterwards, everything went well as the Lord set each and every schedule. My wife, Isabel, got her visa and 'lo, we flew.'

The trip was too short for a week so we did 2 to 3 meetings a day in small groups. On the third day, the news started to spread with other Japanese believers and so those who could not make it to the meetings due to distance and cold weather had to connect via Skype. It worked well for God's glory.

At the last part of the said trip, two precious souls (sister Miyuki & brother Kouya) decided to be baptized in the Name of our Lord Jesus Christ. It was already eight in the evening and the winter wind was indeed cold. But it didn't bother the two Japanese and so the servant of the Lord from a tropical hot country of the Philippines had to brave the cold waters by faith.

Please continue to pray and support the ministry in Japan. I pray to go back soon for necessary follow ups.

Journey to the Message

By Canan Barkley

Hi everyone

I was asked to write up my testimony about how I came to believe the message.

So it all started a long, long time ago, when I was about two years old I asked Jesus into my heart (well that's what I have been told anyhow). I was brought up in a Christian home schooling family in North Canterbury and apart from a few interesting events in my early years it was a reasonably uneventful childhood. Mostly my family wasn't attached to any churches, although the majority of my friends were also Christians. When I turned 13, I started going to the local youth group run by the New Life Fellowship that my older brothers attended. During my 14th year the youth group started up a youth band and I was interested in playing the drums for them, but one of the requirements of taking part was that I would have to go to church every week. At that time I was doing very well with horse riding and was just getting to the level where I would have to start competing every Sunday, so the two were going to clash. I eventually decided to join the band and stopped riding. That was the first big decision I made for God. As a result I started attending church a few times a week, which changed the direction of my life and I started getting very serious about my faith.

I continued to grow in Christ over the years and then at my 21st birthday, a family friend who was well known for a prophetic gift and for getting kicked out of churches, gave me the first two Supernatural books about Bro Branham. It was a couple of years before I got around to reading them, but when I did I really identified with some of the things in his life and found it very encouraging.

A few years later I was chatting to Sarah McCorkindale and she mentioned that she was listening to book six in the Supernatural series so we got talking about it and I ended up getting audio files of the books I hadn't read. I listened to them to find out the rest of his story. Although I didn't find that I identified with those books as much as the first two, I still enjoyed them.

After a while I became reasonably interested in Sarah. There were a lot of the people around me who had past involvement with Bro Branham's teachings in a bad setting. They were all trying to tell me how wrong Sarah's family were so I decided to find out more about what Bro Branham taught so that I could argue against what they believed. At that time I went over to Australia to drive tractors for seven weeks so while I was there I made it my mission to find out what he taught. I started listening to sermons, most of the time normally averaging about four a day. So by the time the seven weeks were up I had listened to about the last 100 sermons that he preached and I found that I couldn't find anything that I could argue with in his teachings.

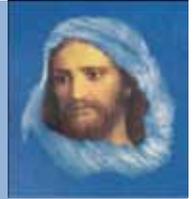

I came back to New Zealand convinced that he was a mighty man of God and that there was a lot for me to learn from him. Then a few months later I moved to North Canterbury and started attending the Gospel Way Outreach fellowship in Rangiora and a midweek bible study with Bro Greg Alford. It was under his teaching that I came to the realisation that there had to be a prophet for our time and that Bro Branham was the most likely candidate out there.

A few months later I moved up to Feilding, married Sarah and continue to learn more and grow in faith at meetings with the Levin/Feilding fellowship.

Recommended Sermon

Brother Chad Lamb

Delivered from the same pulpit that raised doubts on the spirituality of the cloud photo and of Brother Branham as a prophet, this sermon, "What is the Attraction on This Mountain" is a stunning rebuttal of intellectual criticism of the Message.

Revealed to Pastor Chad Lamb of Believers Christian Fellowship (BCF) in Lima, Ohio the sermon reveals a host of relevant information about the cloud. It also includes Biblical numerics of the event that were previously hidden.

Our attitude determines what we receive. Those who expect Brother Branham to be wrong may fail to accept what is preached here, but for Believers who have felt to be on the back foot and made to look like simpletons this sermon restores confidence.

For example; how can the remains of a Thor rocket travel almost due east at 135 mph from California and arrive at Flagstaff **and not be seen**? How can it then stop? How can it be so amazing that ump-teen people not only saw it, but took photos? This included a scientist and meteorological cloud expert from Arizona University. He called it a mystery cloud, and he should know. How come that cloud then moved south south west at 95 miles an hour toward Sunset Mountain? How come it remained in

sunlight for 28 minutes on the 28th February. The temple veil was 28 cubits high and God opened the veil to reveal life when Christ was crucified. 28 days is woman's cycle for life and 28 days is also the lunar (church) cycle. 28 is life. The photo of the cloud appeared in what magazine?

And there is so much more, Including the dots!
They that wait upon the Lord shall renew their strength.

Greetings Brother Joseph,

Thank you for your confidence in me as regards to sharing with you my convictions regarding all these controversial things.

In regards to all these questions that are being raised against the message of the hour, we must realise that the motive behind all this is to try to put doubt into the minds and hearts of the people of God by trying to bring reasoning against the message that God has sent in this day – this is exactly the way Eve fell from the truth in the beginning, and this is where many are also falling away today, they have had an intellectual faith like Cain, but no revelation faith like Abel.

If you will notice that these people are not attacking the Catholic church or any other false church, they are spending their time and energy trying to bring discredit to the message of this hour through vain disputations and questions, yet they will not tell about all the thousands of things that cannot be disputed in the message, these things they rarely mention because it would defeat their motive to sow doubt into the hearts of the weak.

I believe that they are fulfilling the scripture that prophecies of this happening at the end time - II PETER 3:3-4 ¶ Knowing this first, that there shall come in the last days scoffers, walking after their own lusts, And saying, Where is the promise of his coming? for since the fathers fell asleep, all things continue as they were from the beginning of the creation.

Notice they are mocking (discrediting) the “promise of his coming” this word “promise” = “Message” – “The MESSAGE of His second COMING”, they are attacking this last day message of His second coming by mocking it by their intellectual reasoning. This has always been the pattern in every age with the false vine.

If you wanted to, you could also take this same approach (of trying to discredit the word of God) against the Bible, because there are supposedly around 400 inconsistencies in the Bible. Why don't these same people who are attacking this last days message that God promised also attack the Bible where they also cannot reconcile statements - it is because that this is the enemy working through them against the Christ for this day, because he is always the living revealed word for the day in which you live in. That is who He was in every age. He is never the “reasoned word” in each age, but the “Revealed Word” in each age, because it is by revelation of faith and not by intellectual understanding of comparing quote with quote. So this makes these

ones who are trying to discredit the message of this hour anti-Christ, yes they are ANTI-CHRIST because they are against Christ the “Revealed” word for their day.

It is harvest time and every seed cannot help but show its true colours – this is exactly what is going on now.

God knew these questions would come concerning the Cloud etc, but he has designed it all to happen in a way that if you want to reason your way out of faith, then he has made it happen for them to be able to do that and be justified in their own minds.

God's ways and thoughts are far above these ones that think that they are so smart as to try to discredit a vindicated God sent prophet – how foolish can people be to think that they are smarter than what God has sent, in this our generation. He will have the last say, and we do not need to try to prove by quotes and working it all out in our minds of what God has achieved in this hour, he will make it all known to us in his time and not ours.

These people that dispute Gods message for this day are mostly numbered with the unbelievers, and I do not have time to spend playing their foolish games of reasoning and disputing's against the Word that God has sent in this age.

I do not understand everything, nobody does, and if we could work it all out, then there would be no necessity or requirement for faith, faith is when we don't understand it all but you know that God sent it, so it is right, and that is all there is to it for the genuine believer.

Because of their wrong motive of trying to discredit what God has sent in our generation, God gives them over to a spirit of delusion to believe a lie (II THESALONIANS 2:11), they actually believe in their own lies, and God purposefully hides the real truth from them (LUKE 10:21), that is why you will never be able to argue them into believing the truth, because God will never allow them to see it, so you are wasting your time debating with these poor people. It is only by the grace of God that any of us see what we see, so I believe that we must be respectful and kind to these ones who are against us, just as Jesus was respectful and kind to the ones who came against him in his day, but yet we must also take our clear stand for the truth.

*God Bless,
Feel free to share this with all.*

My Two Pennyworth

by Richard Oliver

Intellect is the faculty of knowing and reasoning. Faith is complete trust, unquestioning confidence. (*Pocket Oxford Dictionary*) It is the difference between those two that is the centre of controversy in "the Message" about the Cloud and about Brother Branham being a prophet.

Of course such controversies have always existed. Cain used intellect. He thought his sacrifice would be OK. Abel had a revelation and knew his sacrifice was right. Ten of the twelve spies saw the size and strength of those living in the Promised Land and made a logical and reasonable conclusion. Joshua and Caleb believed God's Word to go and take the land. Peter had a revelation that Jesus was the Christ, the Messiah, while the trained scholars called Him Beelzebub. In more recent times liberal theologians have taken the supernatural from the Bible. Now that same spirit is at work in the Message. It tries to explain the cloud as being the result of a failed rocket test instead of something spiritual. It is Intellect versus Faith.

Jesus had exactly the same problem. (*John 6 v48-69*) He said, "Truly, truly, I say unto you, Except you eat the flesh of the Son of man, and drink his blood, you have no life in you." That was it! Even the seventy left Him. Those seventy had walked with Jesus, even preached and healed in His name. But when it came to something beyond their intellect, something that was purely spiritual, they rejected the man who was fulfilling scripture. Jesus even turned to His disciples and asked if they would leave too. Peter's answer is the same as Believers today, To whom shall we go? You have the words of eternal life, and we believe and are sure that you are that Christ, the Son of the living God.

Believers know that there is no other source of God's Word than that brought by the prophet Wil-

liam Branham. The Messages are the words of eternal life for this age. Modern events are being made clear by prophecy! Those seventy reacted intellectually to spiritual things as others do today. No doubt there will also be a Judas among us at the time of the squeeze. Of course, such a revelation seems ridiculous to those who are like the seventy. It really is Intellect versus Revelation.

Brother Branham likens a person to the three courts of the temple. The outer court is the physical body, the Holy Place is the spirit and the Holy of Holies is the soul. The spirit has memory, imagination, conscience, affections and reasoning. And that last one, reasoning, is intellect. But God doesn't live in intellect. God is in the Holy of Holies, the soul. The soul only has two states, to believe or not believe. That soul state determines what a person sees. There is no point in arguing or trying to persuade intellectual faith people about spiritual things. God works by placing a revelation in a person's heart. And that is how the church is built, by revelation. Only God Himself can give someone a revelation. The only way Believers can help is by allowing the Holy Spirit to open, or close, their mouths as He wants.

Paul, one of the most intellectual person in his day, met Jesus Christ in a supernatural revelation. In his own description of his preaching he says, (*1 Corinthians 2 v4-5*) "And my speech and my preaching was not with enticing words of man's wisdom, but in demonstration of the Spirit and of power, that your faith should not stand in the wisdom of men, but in the power of God." Now if anyone came in the power of God it was William Branham. Many of the miracles and healings still have living witnesses. But just as Korah, Dathan and many of the princes followed their own reasoning, in spite of the vindication Moses had, so it is today. They question the calling; "You take too much upon yourself William Branham"

What is the Message? Come out of her my people that you be not judged. Yet most who have left "The Message" have gone into denominations. Are these people tares after all?

For me, Brother Branham made the written Word the Living Word, and that is proof enough that God sent a prophet.

Making the Vision Plain.

About 2 months ago I was returning to my home, after spending a day in Auckland. The traffic had been heavier than normal, and I turned off on a country road, to take a different way home. All the traffic carried on, leaving me on a quiet country road, listening to a message of Brother Branham. The stress relief was immediate.

A short distance later the presence of the Lord came in the car, and a voice, not audible, but in my head said “Make it plain upon the tablets.” I recognized that this was a scripture, and how relevant it is for this day when a major way the internet is accessed is by Tablets. When I got home I looked up the scripture (Hab 2:2-3):

And the LORD answered me, and said, Write the vision, and make it plain upon tables, that he may run that readeth it.

For the vision is yet for an appointed time, but at the end it shall speak, and not lie: though it tarry, wait for it; because it will surely come, it will not tarry.

This has been the one of the reasons why I have been involved with the BNL. I don't have a “vision” of my own, but I have a prophetic message available to me, and He asks me to make it plain. I had developed small files that I had used when talking to people using the internet. I also had a desire to share with people who did not have English as their native language.

We have developed pages on our website in other languages for brethren to use as a resource during personal witnessing. Currently there is Indonesian, Filipino, Chinese and we are working on French. The translations might not be perfect, but we couple these with messages from the Message Hub which we know are to a high standard.

To view these click the “Book of Revelation” link on our website. God Bless.

Funyula, Kenya

Messages Believers Fellowship
VICTORY VALLEY HOUSE

Victory Valley House is a ministry of Message Believers Fellowship (registered in 2010 with the Kenyan government registrar of societies for independent local assemblies of Christian believers). Victory Valley House is located in a little known rural country town of Funyula, in Busia county of Western Kenya. We believe the message doctrine preached by God's prophet, Bro William Marrion Branham but do not ascribe to any special revelation contrary to what the word says.

Message Believers Fellowship is a missionary minded church with an unsatiable passion for lost souls. Believers Outreach Missions is our missionary and outreach ministry through which we seek to partner with other believers around the world who also have a passion for lost souls. We invite you to partner with us either as an associate minister or associate ministry to partner with us either as an associate minister or associate ministry.

THE PASTOR Brother Leonard Victor Okwaro is the Pastor of Victory Valley House. He is married to Sister Janet Mueni, and has a son, Billy Branham and daughter Shalom Faith. Bro. Okwaro was led to believe the message in 1985. This incidentally happened when there was already a problem in their Pentecostal denomination. Bro. Okwaro's family was among the believers who were bold enough to ask their pentecostal pastor to make right his adulterous life. The pastor was not willing to make

right even after several believers showed proof of his unclean living. Most of the believers planned to leave the church and join other churches. It is at this time that a certain woman who used to attend the fellowships informed Bro Okwaro's family that a certain man came to their church and told them about a prophet who lived in America many years ago, and how God used him. The man who visited their church was Bro Daniel Omolo, a Ministry of Water officer who had been posted to Funyula. Bro. Omolo later met the Okwaro family and explained what the prophet taught and brought a handful of pamphlets which lit the fire that later spread throughout Funyula and its environs. The woman who brought this news has however not believed the message.

The first time a fellowship of believers started here was in 1986. The Pastor of Port Victoria (now Kisumu) Church Bro Mbaga Otiato would send ministers from his church to minister the word to the saints but the fellowship died shortly after. The fellowship was again revived in 1993 with Bro Silvanus Juma assisting the late Pastor David Ochenga of Busia Believers Church in ministering to the saints. Later, Bro Juma left and Bro Okwaro who was the only other minister, was working in the port city of Mombasa, so Bro Christopher Akhenda, at the request of the elders at Busia and Port Victoria Churches, agreed to assist in ministering to the church. The church grew over the years both in

strength and in numbers despite the many problems that it went through.

When Bro. Okwaro became the pastor in May 2006, there had never been a serious drive to reach sinners through evangelistic activities. Immediately, a mission box was put in the corner of the church as instructed by the prophet to support these activities. Believers were encouraged to give priority to getting lost souls to Christ. In a short while the church had already developed there was an unsatiable passion for lost souls. However, it later emerged that what was collected in the mission box was too minimal that it could

not meet the needs of the evangelists in the fields. So Believers Outreach Missions was founded with the main objective of getting the support of believers from other churches. This we have managed to do through a team of associates known as Be-Out-Missions (short for Believers Outreach Missions).

OUR MISSION -Go ye therefore, and teach all nations, baptizing them... Matt 28:19

OUR VISION - To reach as many as were ordained to receive eternal life through the message of the hour.

MAIN OBJECTIVES - To proclaim the grace of God that was sent to us in our generation through the message and ministry of his humble prophet, Bro. William Marrion Branham.- To promote missionary and outreach activities among message believers and ensure there is a proactive team of associates to work in the end time harvest.

OTHER OBJECTIVES - To establish and equip a

Message Library for distribution of message material in mission fields.- To supply Individuals in need with any essential, spiritual or material necessities, upon inquiry and approval by members. Our team will be composed of people who have met the pillar of fire on the backside of the desert.

This Day This Scripture Is Fulfilled - 23...*So no man has a right to call himself thus, until he's talked face to face with God on a back side of a desert somewhere, where he met God Himself. And all the atheists in the world could not explain it away from him; he was there, and he know it happened. Every Christian should have that experience before they say anything about being a Christian: your own experience.*

KIND REQUEST Please, let it be understood that Believers Outreach Missions is strictly for spreading the gospel of Jesus Christ and the message preached by God's prophet to this generation, Bro William Marrion Branham. We appreciate all those who are trying to help those with various problems like HIV and Aids and we wish we could be able to assist but we do also have a great task of getting the last lost soul to Christ in order to hurry up His coming. It requires so much that we find it only prudent to let the churches take care of its own poor people, widows and orphans while we continue to preach and pray for the sick, including those with Aids. If there is any assistance the Lord enables us to give then we would be glad to do it through the churches and not organisations. But above all, let's trust God who is able to provide all that we need. Thanks and God bless you all. Bro Victor Okwaro - founder associate minister

KINDLY PRAY !!

- war against pleasures - pray with me in this battle to yield and submit unto the Lords will in my life
- Trials - Requesting you to remember me and my family. I've been through thick and thin physically and spiritually. Thanks for your continued support for the salvation of many in these final times.

GOD & SCIENCE

Science is finding God

by Richard Oliver

The reality today is that the latest scientific research is finding God. School and many university text books, the Radio, TV, magazines and newspapers are many years behind the recent discoveries and the latest understandings of life and our incredible universe.

The Bible says that God created the universe out of nothing. And that is exactly what the Big Bang theory concludes. Everything came from nothing. That nothing is called a singularity but it is still nothing.

And our planet Earth is not just another planet. It is perfectly designed for life. The chances of another planet Earth occurring by chance are about one in more than all the atoms in the universe.

From the macro to the micro, Darwin concluded that if it could be shown that an living organ or organism could not have developed in small incremental stages then his theory of evolution would absolutely break down. He says that small adaptations and mutations could give a creature an advantage in its fight for survival. Survival of the fittest would ensure its genes were passed on, the others would die out.

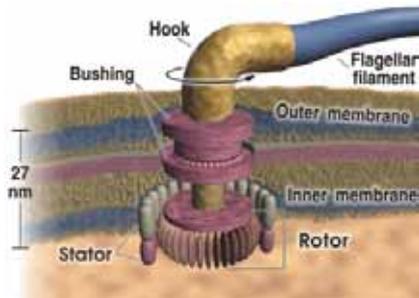

We are shown Darwin's tree of life with twigs reaching out in a massive diversity of life from many branches to a thick trunk. Over billions of years many small changes would produce new life forms. Firstly, assuming the current geological time frames, there isn't billions of years for evolution. There is 500 million at the most; and that is no where near long enough.. Palaeontology, the study of fossils, has found that, other than simple life forms, such as bacteria, all complex life arrived at pretty much the same late geological time. This Cambrian rock strata reveals fully developed creatures, many

of which are identical to today's examples. There is no evidence whatsoever of any gradual development of evolving life. According to the fossil record life has not moved from simple to the

complex. As a result if Darwin's tree were redrawn it would have no trunk or branches. Secondly, armed with extremely powerful microscopes micro biologists can now see molecular machinery in use in everything from an E-Coli bacteria to a human cell. The E-Coli bacteria has a tail driven by a machine that resembles a miniature electric motor. That motor has some forty separate parts making such things as a stator, bearings, u joint, rotor, it is water cooled, spins at up to 120,000 revolutions per minute and can go from forward to reverse in a quarter of a turn. It is the most efficient motor known in the universe. The point is that to develop incrementally in an evolutionary way each part has to bestow an advantage. But the advantage to the E-Coli only comes

if the whole motor is complete, fully developed and in place. In this example it is shown that the E-Coli tail, a living organ, cannot be formed in small incremental

steps. Darwin's own test proves that his theory of evolution has utterly broken down.

Then there is adaptation. But once again Darwin's theory of random changes are found to be false. It now seems that specie adaptive abilities are built into a creature's genetic computer code. It is all pre-programmed. If a change in environment, food, temperature, occurs then an IF THEN switch within the DNA code triggers a range of changes to allow that creature to survive. It isn't chance, it is planned.

Hence many scientists today are now saying, "Hello God."

FOOD FOR THOUGHT

Man's way leads to a hopeless end -- God's way leads to an endless hope.
A lot of kneeling will keep you in good standing.
He who kneels before God can stand before anyone.
In the sentence of life, the devil may be a comma--but never let him be the period.
Don't put a question mark where God puts a period.
When praying, don't give God instructions - just report for duty.
We don't change God's message -- His message changes us.
The church is prayer-conditioned.
When God ordains, He sustains.
WARNING: Exposure to the Son may prevent burning.
Plan ahead -- It wasn't raining when Noah built the ark.
Most people want to serve God, but only in an advisory position.
Exercise daily -- walk with the Lord.
Never give the devil a ride -- he will always want to drive.
Nothing else ruins the truth like stretching it.
Compassion is difficult to give away because it keeps coming back.
He who angers you controls you.
Worry is the darkroom in which negatives can develop.
Give Satan an inch & he'll be a ruler.
Be ye fishers of men -- you catch them & He'll clean them.
God doesn't call the qualified, He qualifies the called.
It is easier to preach ten sermons than it is to live one.
When you get to your wit's end, you'll find God lives there.
Opportunity may knock once, but temptation bangs on your front door forever.
Quit griping about your church; if it was perfect, nobody could belong.
If the church wants a better pastor, it only needs to pray for the one it has.
God Himself does not propose to judge a man until he is dead. So why should we?
Some minds are like concrete, thoroughly mixed up and permanently set.
Peace starts with a smile.
We were called to be witnesses, not lawyers or judges.
Coincidence is when God chooses to remain anonymous.
Forbidden fruits create many jams.
God loves everyone, but probably prefers "fruits of the spirit" over "religious nuts!"
God promises a safe landing, not a calm passage.
If God is your Co-pilot - swap seats!
The task ahead of us is never as great as the Power behind us.
The Will of God will never take you to where the Grace of God will not protect you.
We don't change the message, the message changes us.
You can tell how big a person is by what it takes to discourage him.

THE RESTING PLACE OF SISTER JOAN CAROLINE WILSON

Location: - The Kauae Cemetery at Ngongotaha - Rotorua - NZ

Our much Loved Sister in Christ known affectionately by many as 'Sister Joan' - was called home on the 9th July last at 12.10am, with Sister Ana Van Duin present, as the hymn It Is Well with my Soul - (also known as - 'When Peace like a River' - Redemption Songs - 413) was sounding. The Headstone of Granite, represents the Bible and includes the inscription - 'A Dear sister in Christ, is greatly missed by her family and friends, however not for long; for we have a blessed promise awaiting us soon'. (1st Thessalonians 4:17-18)

PREPARING TO BE WITH THEE

Life is a special thing;
Fleeting though, it takes its wing
Like the seasons – first it's Spring;
Bud and flowers their beauty bring.

Then comes on the Summer heat;
Fruit is formed for all to eat.
Next the Autumn's harvest time,
Ere the Winter's chilling clime!

“Yes dear Lord, so let it be, as
We prepare to meet with Thee
Where Seasons cease to come and go
And all is bliss, more than we know!

“All because You died for me
That from sin I might be free...
Clean and white, prepared to be,
Your own bride, eternally!”

So I say (here is the key!),
Yes dear Lord, I give to Thee,
My old self...now born anew!...
Simply what to You is due.

*Composed and dedicated to Brother Charles, after the departure
of Sister Joan Wilson, - Sent from across the Tasman. dw*
